### Declaration

#### Dear customer

Herewith we confirm that the following products comply with GB18583-2008, which means the following products do not contain VOC chemicals as Formaldehyde, Benzene, Toluene, Ethylbenzene, Styrene and Xylene.

**DORUS SL 3335**

**DORUS SL 3503**

Above products contain few Methanol, which can be traced back to our raw material. We want to draw your attention that the adhesive is only part of the final product. The safety of the whole product needs all the suppliers and your company to strictly control the quality during the manufacture process. The safety requirements can be fulfilled by controlling the solvent residual.

When the adhesive is fully cured then there is no significant risk from our product.

If you have any further questions, please do not hesitate to contact us again.

Kind regards

*Product Safety and Regulatory Affairs Specialist*

**Disclaimer:**

*The information being provided regarding the substances contained in these products comes from reviewing information provided by the suppliers or producers of the raw material used in these products. Henkel Corporation may not have conducted any tests to determine the actual presence of these substances in the above products.*
